MEMORANDUM FROM THE RESIDENTS OF KINNIGOLI (MANGALORE TALUK)

SOUTH KANARA DISTRICT.

The Hon'ble Sri A. B. Shetty,
Minister for Health,
Government of Madras.

Respected Sir,

Sub: Rural Electrification - Kinnigoli -
extension from Mulki to Kinnigoli -

We beg to inform you that applications for electric energy were called for by the Electricity Department in 1955 and as many as 250 applications were forwarded by the residents of Kinnigoli and its suburbs.

After preliminary survey etc., we were informed by the Department that supply of electricity would be made available definitely by March 1956, but we are sorry nothing tangible has been done so far. The entire coast-line from Udipi to ~~He~~ Hejamady has now been electrified and we learn that the same will be extended to Mulki very shortly.

The Hon'ble Minister is aware that Kinnigoli is a fast developing rural centre, and is one of the few top rural areas which deserves Government's first hand attention with priority. Kinnigoli is about 5 miles from Mulki, and as such, we hope, the department will not find it difficult to extend the supply from Mulki.

We kindly request the Hon'ble Minister to take special interest in this matter and do the needful.

Thanking you,

Yours faithfully,

Date 5th Sept, 1956.

Hon'ble Sri A. B. Shetty,

I have enclosed herewith a copy of our representation to the Hon'ble Minister for P.W.D. Kindly spare some of your very precious time and devote the same for this matter and help us to achieve our task before the 1st of November.

Thanking you

Ka mpa:

To,

The Hon'ble Raja Sri Shanmuga Rajeswara Sethupathi,
Minister for P.W.D.

Government of Madras.

Humble representation from the residents of Kinnigoli
and its suburbs (Mangalore Taluk) South Kanara Dist.

Sir,

Sub: Rural electrification - Kinnigoli area -
sanctioned scheme under the 1st five year plan.

We beg to submit that the scheme of rural electrification which was sanctioned under the 1st five year plan from Mangalore to Mulki and Kinnigoli and the work which was progressing briskly has now suddenly stopped midway at Suratkal for want of poles.

Kinnigoli is a fast developing rural centre and is one of the few top rank rural areas which deserves Government's prior attention. There are two rivers one on either side of Kinnigoli viz: (1) Kateel river and (2) Sankalakariya river running from east to west around which lies our granary of a large area of rice fields of hundreds of acres. Electricity is of utmost importance in working pumpsets for irrigation of these fields in raising and increasing the second and third food crops.

The small gap from Suratkal to Pavanje-Haleangadi and thence bifurcating to Kinnigoli and Mulki can be completed within a few days. We earnestly request the Hon'ble Minister to kindly take up this urgent matter and pass necessary orders in the matter of a very great importance. Pray, please do the needful immediately. We shall be ever grateful to you for this act of generosity.

Thanking you,

We beg to remain,

Sir,

Yours faithfully,

(Dr. S. Champa)

Kinnigoli.) For & on behalf of the residents of Kinnigoli
) and its suburbs.

(original in file no 36902456) 15

Copy of the letter from the C.E.(E) No. 2462 F/56-4 dated 26-9-56 to the Secretary to Government, Public Works Department.

Subject: Electricity - Pykara Electricity System-
South Kanara Dt - Extension to Mulki-
Stopping of work.

Ref: Government Memo No. 3890 E/56-3 dated
18-9-56.

With reference to the Government Memo cited above, I have to state that the work on the Mangalore-Mulki extension has been slowed down mainly due to want of line supports and other materials.

2. In this connection, I invite reference to my letter No. E(R)/A3/R1/116 dated 24-9-56. As already stated therein, every effort is being made to cope up with the situation and if the supply position improves in the coming weeks, further progress will be made on schemes which are in advanced stages of completion viz. Mangalore-Mulki, Kaup-Hejmadi, Hiriadka-Bommarubettu before the Reorganisation of States takes effect.

Copy of letter No. ER/A 3/R1/116 dated 24-9-56 from the Chief Engineer for Electricity, Madras to the Secretary to Government, Public Works Department, Madras to the Secretary to Government, Public Works Department, Madras:-

Sub:- Electricity - Pykara Electricity System - South Kanara District - Execution of Extension Schemes.

Ref:-Government Memo.No.5188-E/56-1 dated 19th September 1956.

I acknowledge the receipt of the Government reference cited above. In reply I have to state that there is at present a general dearth, throughout the State, of major line materials and this is responsible for the comparatively slow progress in the execution of sanctioned electricity extension schemes in all the districts.

2. There is a temporary lull in the construction ~~program~~ programme in all areas due to shortage of supports, meters conductor and other essential materials. A consignment of supports has just been received at the harbour and this is being equitably distributed to all the Construction Divisions of the Department. Conductor position is also easing out. Supply position of meters from Remco, Bangalore is also improving. The materials available are being equitably distributed to all the systems and all the Construction Divisions. In this equitable distribution, South Kanara will also get its due share.

It may kindly be made clear to Shri Vaikunta Baliga and the Vice President, Circle, Congress Committee Mulki that the present temporary lull in the construction progress has nothing to do with S.R.C. and there is similar lull all over the State and the same will get eased shortly when we get supplies.

3. As desired by the Government, I am enclosing herewith a statement showing the number of sanctioned schemes for South Kanara District, the stage of execution at present and the percentage work done so far, based upon the information readily available here. It is expected that the Mangalore-Buntwal Scheme will be completed before the end of this month. No target date of completion of the other three schemes viz. Mangalore-Mulky, Kaup-Hejmadi, Mangalore-Barkur, Hiriadka-Bommarubettu could be given, although some of them are in advanced stages of completion, as this depends entirely upon the availability of line materials.

Apart from line supports, supply position of other materials such as conductors, meters and other sundry materials is none too satisfactory and every system is finding it difficult to keep up to the targetted progress of work and expenditure. Every effort is being taken to cope up with the situation and if position improves in the coming weeks, the schemes now in advanced stages of completion viz. Mangalore-Mulky, Kaup-Hejmadi, Hiriadka-Bommarubettu will be completed as far as possible, before the Reorganisation of States takes effect.

Our difficulties of transferring materials to South Kanara are worsened by the loud protests put up by the South Kanara, when oil engines at Udipi Mangalore etc. are transferred to the other areas, as they are no longer required in South Kanara. Similar protests are raised by the politicians of the Tamil State, when line materials are transferred from the Tamil State to South Kanara.

In spite of these, I am arranging to do the utmost in the circumstances.

P.W.D. (E-2)

Letter No. 5065 E/56.2 dt. 27.10.58

To / D. S. Champa,
Kinnigoli, South Kanara Dist.

Sir,

Sub: -Electricity - Pykara Elec.
System - South Kanara
District - Extension of
supply from Mulki to
Kinnigoli.

Ref: -Your letter dated 5-9-56 to
M(H).

I am directed to state that a scheme for extension of supply of electricity from Mangalore to Mulki and other villages in South Kanara District was sanctioned in October 1955 and ^{is now} under execution. The scheme contemplates supply of electricity to Kinnigoli village also. The work on execution of ^{the} scheme has been recently slowed down due to want of essential line materials, ~~but~~ it would be completed as far as possible before 1st November 1956, if supply position of materials improves.

Y.F.,

25/10/58

Sub:- Electricity - Pykara Electricity System -
South Kanara District - Extension of supply
from Mulki to Kinnigoli.

Ref:-From the residents of Kinnigoli, memorandum
dated 1-9-56 to M(H).

From ~~Dr.~~ S. Champa, Kinnigoli letter dated
5-9-56 to M(H).

From the C.O.E(S) letter No.2462-F/56-5
dated 4-10-56.

"M(W)

Presented to me personally today at Mangalore.
The request in this Memorandum may be complied
with.

A.B. S(hetty)
1-9-56"

Mangalore Taluk, S. Kanara dt.

The residents of Kinnigoli village, have
represented that applications for electric energy
were called for by the Electricity Department in 1955
and as many as 250 applications were forwarded by the
residents of Kinnigoli and its suburbs. They have
added that though they have been advised that
electricity would be made available to them definitely
by March 1956, nothing tangible had been done so far
in that direction. As supply of power would be exten-
ded to Mulki very shortly, they have requested that
Kinnigoli also may be supplied with power from Mulki
which is only about 5 miles. One Dr. S. Champa,
Kinnigoli also has represented in the matter.

2. A scheme for extension of supply of electricity
from Mangalore to Mulki was sanctioned in G.O.Ms.No.4082
P.W. dated 27-10-55. The scheme is estimated to cost
Rs.7,69,900/- initially rising to Rs.16,54,200/- at the
end of ten years. It contemplates supply of power to
Kinnigoli village. The scheme has already been taken up
for execution. Pole erection has been done up to
Suratkal and 12 more ~~lines~~ ^{miles} have to be erected.

24/8

In view of the general dearth of major line materials such as supports, meters conductors etc. throughout the State, work on the execution of extension schemes has been slowed down in all the districts including the South Kanara District and the temporary lull in the construction progress has nothing to do with the States Reorganisation and it would ~~not~~ ^(15/5) ~~be~~ ^{be} ~~soon~~ ^{soon} shortly. The ~~Minister~~ ^(15/5) has stated that in the meanwhile the materials available were being equitably distributed to all the systems and all the construction divisions and in this equitable distribution, South Kanara would also get its due share. He has also stated that the Mangalore-Mulki scheme would be completed as far as possible, before the Reorganisation of States takes effect if the supply position of materials improves.

A Dr. S. Champa may be replied to suitably.

A draft letter is submitted. The file may be circulated to M(W) and M(H) for approval.
